

# my FIRST few DAYS..

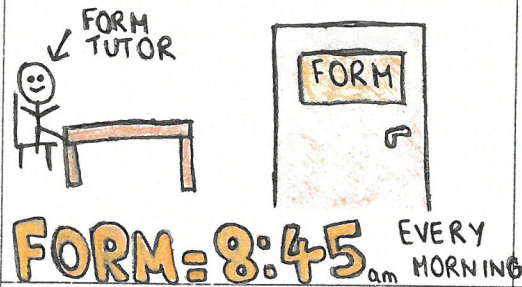

My first few days at Callerton won't quite be the same as the usual days that will follow. Here's how they will look a little bit different...

When I arrive at Callerton Academy I will be greeted with lots of familiar faces, who I met on transition day. They will guide me to my classroom and help make sure I don't get lost!

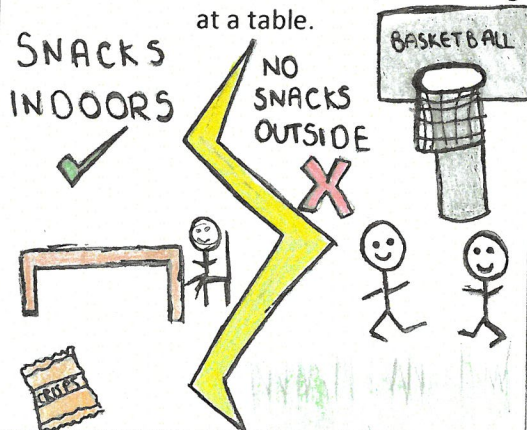

Once I get to my classroom, my form teacher will introduce themselves and take the register. This is where I will go every morning, once I have arrived at school, even after those first few days of a slightly different timetable!

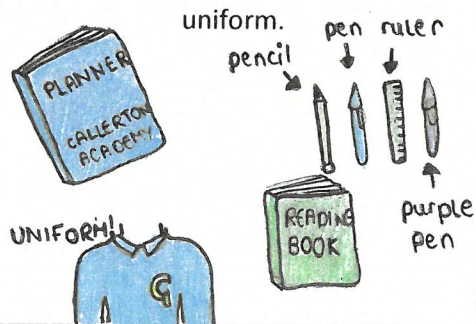

After I have met my form tutor and confirmed I am here, my form tutor will walk me down to the assembly hall where I will have my first ever assembly.

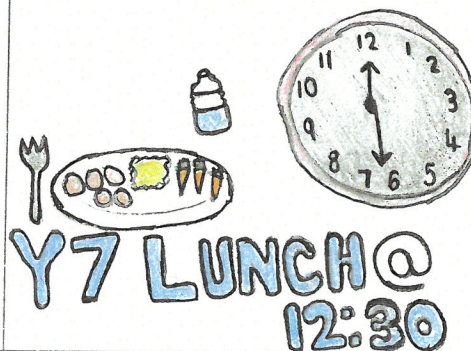

After assembly, it will be break time. At break, I can sit inside and have a snack and a drink or I can run around outside; I can even do both! But I must always eat sitting at a table.

After break, I will have some lessons. My lessons may include a tour, which will be given by our super helpful older students, a lesson about school routines, a lesson about our school planner, a lesson about safe travels or a lesson about equipment and uniform.

Then, the part you will be ready for most! It will be lunch time! At Callerton Academy you can have a school lunch, where you can pick from a selection of hot or cold meals, or you can have a packed lunch. It's entirely up to you!

Finally, I will end the day with some more lessons. My lessons will be whichever I did not get to do this morning: a tour, which will be given by the super helpful older students, a lesson about school routines, a lesson about our school planner, a lesson about safe travels or a lesson about equipment and uniform.
