

## SCIENCE Assessment and Feedback Overview

At Callerton Academy, student understanding is checked every lesson by their subject teacher through a range of teaching and learning strategies. We have three clear assessment points, one per term, which is used to formally assess student progress and understanding. Subject leaders build in other opportunities to assess students throughout the year and adapt their curriculum to support student progress. As we are a growing school, we have thought about how we assess students over their five years at Callerton Academy and will update this guide for Key Stage Four in the Summer Term of 2023-24.

### Examples of on-going assessment and feedback in lessons

- Verbal feedback by the teacher to the whole class which students act on in the lesson; this is often evidenced using purple pen.
- Students self-assess or peer-assess work with a clear framework guiding them through this.
- Teachers circulate to give 'LIVE' and immediate feedback as students are working independently
- Students may complete mini quizzes or starter activities (last lesson, last week, last month) and receive verbal feedback
- Use of tailored questioning by the teacher
